

Chadwick Street Hilton Park

May 2021 saw EQUANS complete the transformation of a former stadium into more than 100 family homes in Leigh.

The £11.3 million development, located on the former Hilton Park site, off Chadwick Street, consists of 103 two-, three- and four-bedroom homes.

Built on behalf of Sigma Capital Group, for their Simple Life private rental brand www.simplelifehomes.co.uk, the project was completed in a number of phases, in two years, with plenty of demand for the modern, contemporary homes from prospective residents looking to move into a high-quality property.

Steve Gregory, Head of New Build at EQUANS UK & Ireland, said: *"We are delighted to be putting the finishing touches to work at Hilton Park. The project will bring more much-needed homes to the community in Leigh, with opportunities for prospective residents to have more space for a growing family or down-size into a modern new home."*

"Completion of the development continues the successful partnership EQUANS and Sigma share, which benefits and regenerates communities across every area we work together."
