## Summary

This document summaries the resources that make up the SLES Champions Net Zero Training Course.

The course has been piloted with 6 Keele University students, 1 Keele University staff member, and 4 Rugeley community members.

The course consists of 4 sessions titled: 1) Energy and Carbon Literacy 2) Domestic Energy Efficiency 3) Domestic Energy Generation and Storage 4) Low Carbon Travel. Each session is designed to be interactive and takes around 2 hours to complete, resulting in 8 hours required to complete the course.

Each course also has accompanying trainers' notes, and there is a resource book that contains information and sources from all 4 sessions. These materials are intended to support Rugeley community members in the delivery of the workshops.

Table 1 identifies each section of the course.
