Subject •	Keywords – energy policy, electricity markets, energy governance, decarbonisation plans
Description	<p>The Smart Local Energy Systems (SLES) programme for Rugeley town aims to identify a way forward for an optimised suite of energy and services solutions that can offer a more localised control than the standard energy company model. This output is part of the Zero Carbon Rugeley (ZCR) project, which has been extended to include a new implementation phase up to February 2023, named implementation ZCR or iZCR. The project webpage provides an overview of the project and a list of outputs.</p> <p>Regen led on the policy and regulation work package (WP9 in ZCR &amp; WP19 in iZCR) and inputted to several other work packages. This is Deliverable 3, the summary report which brings together the energy policy tracking activities and wider project learning. This output is summarised in an online exec summary available <a href="#">here</a>.</p>
