

# Queen Alexandra Hospital, Portsmouth

**Equans provides total facilities management services to the 1,400 bed QAH Portsmouth, under a services contract extending until 2040.**

Our services are tailored to support this site, which currently boasts 27 main operating theatres, a state-of-the-art Pathology Laboratory, and a Combined Heat & Power (CHP) electricity generation plant.

Equans continues to adapt its services to support the site's requirements including through the recent completion of new modular wards and the addition of a new multi-storey car park.

The non-clinical FM services that Equans provides include:
